Diagnostic programs may be customized using your instructional objectives. Contact Mech Mentor for details.

Instructional Lessons

The majority of the instructional lessons are keyed to the instructional objectives contained in the Diagnostic Series, usually there are several lessons for each objective, each with a different instructional approach. In those cases where voice is not used in the lesson a number of lessons can be loaded into the computer at the same time.

All lessons are priced at 9.95 each.

A current listing of available instructional lessons may be requested. Customized instructional lessons are available. Contact Mech Mentor for details.

Enrichment Programs

GRAF program. Based on graphics construction, the GRAF program provides any age child with the opportunity to gain an understanding of programming while constructing pictures and animated figures on the screen.

39.50

A number of other enrichment programs are in preparation.

Any Mech Mentor courseware may be returned for full credit if returned in saleable condition within 30 days. All materials shipped FOB Mech Mentor's shipping point.
